

Always

Panama

Always I remember you
Slow down so I can follow you
And you, such a fearless soul
Disarmed me by truth, and broke my mold
Always I remember you
Slow down and try to tell the truth
And I know I'm just a coward when it comes to love
Disarmed by words, like an old white stain
Goodbye my deeper child
Told you: dig down your barricades
And follow your own heart now
Always I remember you
Slow down, and try to tell the truth
Always I can recall you
Can you slow down so I can follow you?
Deep down you said I'm a coward when it comes to love
Deep down your words changed my mold
Deep down you said I'm a coward when it comes to love
Deep down your barricades changed my mold
