

# Better in the Morning (WITHOUT Remix)

## Little Boots

[Intro] (x4)

Do-do-do-do, do-do-do

Do-do-do, do-do-do[Verse 1]

Stars are drowning in the sky

They know that we are waiting

Moon's [?] the sun goodbye

I guess I'll catch you later

People are just waking up

But I can't stop the yawning

Fasten up my coat

It's always better in the morning[Verse 2]

Trying to remember but the night already fades

Lost track of the time

I never meant to make you wait

Even though you weren't around

My phone says you were calling

Try to shake it off

It's always better in the morning[Hook]

It's always better

So much better in the morning

It's always better

So much better in the morning[Post-Hook]

Make it better in the morning

I hope we can still be friend

Make it better in the morning

Can we start over again[Verse 3]

I can still hear music if I stop and close my eyes

No one seems to notice that the sky is turning white

Think I'll take the long way

I know that I am stalling

There'll be trouble but

It's always better in the morning[Hook] + [Post-Hook][Hook] + [Intro] (x4)
