

Intravenous

Bel Canto

Send me a message
Escort me through the passage
 Into the dark side of life
Let me slip, slip, slip into the eternity
 I sense a light, a cave so bright
 A cave so brightOh, what a trauma
 Release me from this coma
 Why won't they let me escape?
Drip, drip, intravenous emergency
 And so in vain
The heal the stains and wounds on my bodySo torn apart and bloody
 I do not wish to return
 I don't wanna be one of the crippled ones
Do hear my prayer, don't fade away, don't fade awaySend me a message
 Escort me through the passage
 All I need is a sign
 Skip, skip, skip over this emergency
 Forgive my sins, don't force me in
 To live like a phantom
 Still, this is nothing random
