

Look Of Today

Enigma

Come in and see the newest things
Feel what just money can bring
Don't you know, that's the load of today You have a problem, I can help
Buy it and be yourself
'Cause you know, that's the look of today So many trends just fade away
Before you can wear it, it's a pass a blade
But you know, that's the look of today You are so stylish, you are so vain
Sometimes I think you have no brain
But you know, that's the look of today
