

Crazy Little Party Girl

Aaron Carter

Crazy little party girl
How I love her
Partying around the world-she wants to dance
Crazy little party girl

There's no other
Party Party
Always ready to dance
Time for a party-time to take a chance

Turn up the music
And we'll dance-dance-dance
Good days are coming-lonely days are gone
'Cause I have a little
Who wants fun-fun-fun

Everyone-needs a little time
Everyone-a reason for a smile
Everyone-wants to love someone
Everyone-wants to have a little fun

Crazy little party girl
How I love her
Partying around the world-she wants to dance
Crazy little party girl

There's no other
Party party
Always ready to dance
Don't try to stop her-don't cha want to know

What makes you happy
Baby please don't go
I got a feeling-that you'll be alright
It's a natural feeling

And it's high-high-high
Crazy little party girl
How I love her

Partying around the world-she wants to dance

Crazy little party girl
There's no other
Party party
Always ready to dance
