

# The Wild Life (Instrumental)

## Bananarama

What your mother don't know, she won't mind  
Her good advice was a waste of time  
You wanna live fast, cutting it fine  
Make hay while the sun shines No one there to say, you're wrong or right  
You've waited a lifetime  
Burning all your bridges tonight [Chorus]  
This is the wild life  
It's the wild life  
Wild life  
This is the wild life No stone left unturned  
Jump in the fire you're gonna get burned  
You might lose your way  
When you come out to play the wild life I may be too young but I've seen and done  
Everything that they say is fun  
I gotta find out for myself  
In the end there's no one else Every time I try to win I lose  
I'm tired of waiting  
Now I'm gonna make my own rules [Chorus] No stone left unturned  
Jump in the fire you're gonna get burned  
You might lose your way  
When you come out to play the wild life No one there to say you're wrong or right  
You've waited a lifetime  
Burning all your bridges tonight [Chorus] No stone left unturned  
Jump in the fire you're gonna get burned  
You might lose your way  
When you come out to play the wild life
