

One Day

B.o.B

[Intro:]

Terry Urban. The Commissioner. One two.[Verse 1:]

Well I'm a wiz with my verbiage and speech

The only thing that I give is the words on this beats

And it's easy to see that I encourage the streets

So uh, a leader is what I must certainly be

Eastside

I'm in the game permanently

They say they calm but they really lookin' worried at me

Man I'm a be up in this bitch till they bury the B

The O the B and all the periods in between

Man I do this shit here for the city I'm from

And I'm 'bout to change what y'all consider the slums

Plus by thus far I'm as real as they come

So if you wanna stop me best pick up a gun

Bust something[Chorus:]

Well all that I've have got to give

Is these words I say

And when the timin' is right

I promise you, you'll understand one day

How how how how how how how how how

Ohhh one day

How how how how how how how how how

One me, one day

So all that I have got to give

Is these words I say

And when the timin' is right

I promise you, you'll understand one day

How how how how how how how how how

Ohhh one day

How how how how how how how how how

One day[Verse 2:]

Haha, pleeeeeease don't hate

You know I'm nice

Comin' through your screen like I'm Poltergeist

The flow is somethin' like snow in October right?

So when I hold the mic bitch, I'm Dolomite

Huh, but y'all doin' nothin'

Me? I'm up in the sky, I'm abductin'

Y'all Earthlings with my super duper button
I got a space ray, fuck what y'all bustin'
But man, I'm really just advanced
I'm not a human, I got antennas that are hands
And I got government transmitters in my head
So I'm paranoid I got bullets in my bed
Right next to the fullies, so I'm fully gettin' dressed
In the mornin' with girlfriend, busy cookin' breakfast[Chorus:]
Well all that I've have got to give
Is these words I say
And when the timin' is right
I promise you, you'll understand one day
How how how how how how how how how
Ohhh one day
How how how how how how how how how
One me, one day
So all that I have got to give
Is these words I say
And when the timin' is right
I promise you, you'll understand one day
How how how how how how how how how
Ohhh one day
How how how how how how how how how
One day
