

# Hang On

[Mikey Wax](#)

I wonder how long this feeling will last  
It's coming on so strong  
And I'm stuck in the past  
And your reasons for leaving  
Are reasons I knew  
But I've given you love still there's more I can do  
So hang on there's not a lot I can say if you're gone  
The music's slippin' away  
So hang on  
Let's write an endless song let my heart beat on and on  
So hang on  
When we were together  
My heart's in a trance  
I'm hoping for one more song  
Just one final dance  
Cause a love like yours was my antidote now there is no cure  
and it's killing me killing me slow  
So baby please don't go  
So hang on there's not a lot I can say if you're gone  
The music's slippin' away  
So hang on  
Let's write an endless song let my heart beat on and on  
So hang on  
And I don't wanna fade away  
like at the end of every tape  
we gotta hit rewind and start again  
So won't you give me one more take  
and we can try for no mistakes  
I'm gonna love you right until the end  
So hang on there's not a lot I can say if you're gone  
The music's slippin' away  
So hang on  
Let's write an endless song let my heart beat on and on
