

Heritage of Middle Distance

Echo Orbiter

On the film you looked like you'd be innocent
A gorgeous girl, even back so long ago

Why'd you ruin all you had to offer?
I wish I could go back and save you from the end

Come with me and get away from influences that you're too young to flee
You could once again be the prom queen;
But this time I'd be king and write a good conclusion

On the film you looked like you'd be innocent
A gorgeous girl, even back so long ago

Why'd you ruin all you had to offer?
I wish I could go back and save you from the end

Come with me and get away from influences that you're too young to flee
You could once again be the prom queen;
But this time I'd be king and write a good conclusion
