

# Boat Song

Kita K.

All of us, connected  
All of us on the same road home  
And if one should fall or falter  
Then we all reach down together as one  
And we lift them up again

Only our world  
Could we find some meaning  
So we created our own  
Still here today  
I had a dream, I was lost at sea  
All of you  
Afloat on the same boat home  
Please throw me a line  
I think I'm drowning  
So you all lent over  
to pick me up  
and we spent the rest of the night swimming

Nobody's falling apart  
Don't need to know what your thinking  
Kissed the world goodbye  
And then we ran away

---
