

Flight

Solander

You

Eh why you looking at me
You got something to hide
I got something to see
Stay
Right where you stand
And then when I say go
You gonna take what you can
Look at the things you've done
At the things you've done
At the things that you've done

We're on fire

Stand and fight

We could be in flight

You

You mean nothing to me
Can I feed you a lie
For a pledge to be free

Take

And then make what you can
Quit choosing a side
Stay right where you stand
Wait before you let it go on
Before you let it go on
Before you let it go on

We're on fire

Stand and fight

We could be in flight

We'll burn it down...

We're on fire

Stand and fight

We could be in flight

Lost and tired
