

Soft Shock

Yeah Yeah Yeahs

Unknown, talk to unknown
Ever, lasts forever Well, it's a shock, shock to your soft side
Summer moon, can't you shut eye
In your room, in my room
In your room, in my room Louder, lips speak louder
Better, back together Still it's a shock, shock to your soft side
Summer moon, can't you shut eye
In my room, in your room
In my room, in your room Hey, it's the time, it's the day, don't leave me
It's the time, it's the place, don't leave me
It's the time, it's the day, don't leave me
It's the time, it's the place, don't leave me out
Leave me out, leave me out, leave me out
