Disrespectful

Chaka Khan

Disrespectful
You don't wanna treat me
You don't wanna play around
'Cause you could be history
Don't mess around with me
I'm too good to you, yeah
What the hell you take me for?
I'm nobody?s fool
Boy, what is wrong with you?
I don't have time for this
You can't make me lose my mind
I'm too strong for ya
Disrespectful
Yeah, it's no mystery
Best thing to happen to you
No one compares to me
Baby, I remember
When you use to love me
I remember when you used to love me
Through the good and bad
What a good thing we had
I remember when you used to love me
Why you so brand new?
What happen to you?
I remember when you used to love
Love me
Disrespectful
I don't think you?re hearin' me
Better pay attention
I'm everything you need
Who's the one cookin' the food
Goin' through the same thing
You goin' through? That's me
You better get your act together
Before I have to flip out on you, baby
Boy, what is wrong with you?
I don't have time for this
You can't make me lose my mind
I'm too strong for ya

Disrespectful
It's no mystery
Best thing to happen to you
No one compares to me
I remember when you used to love me
Through the good and bad
What a good thing we had
I remember when you used to love me
Why you so brand new?
What happen to you?
I remember when you used to love me
Through the good and bad
What a good thing we had
I remember when you used to love me
Why you so brand new?
What happen to you?
I remember when you used to love
Love me
Runnin' out of time
Runnin', runnin'
Runnin' out of time
For your disrespectfulness
Runnin' out of time
Runnin', runnin'
Runnin' out of time
I'm just too good for this
There are times that I do miss you
But I must keep movin' on
I never thought that I would wake up
And you'd be gone
You never thought about me
Don?t you take me for no fool, boy
I know [Incomprehensible] yeah
This whole city know that I?m crazy
To think that I wouldn?t see you
Through all your mess
I remember when you used to love me
Through the good and bad
What a good thing we had
I remember when you used to love me
Why you so brand new?
What happen to you?
I remember when you used to love me
Through the good and bad
What a good thing we had

I remember when you used to love me
Why you so brand new?
What happen to you?
I remember when you used to love
Love me
I remember when you used to love me
Through the good and bad
What a good thing we had
I remember when you used to love me
Why you so brand new?
What happen to you?
I remember when you used to love me
Through the good and bad
What a good thing we had
I remember when you used to love
