Saturday

Lil' Mo

Ooh, ooh, ooh
You said you had to leave
Come Saturday, you gonna be with me
Said you had things you had to do
Now it's Monday, I ain't seen or heard from you
How much more time you need?
I let it marinate, getting worried
Now it's Wednesday, didn't see your face
Ooh, baby, I believed you when you said
Said, you would love me for always
But always ended Saturday
How could you look me in my face?
Knowing you were with her in the first place
Ooh, I try to reach out and touch you
But I look a fool, look a fool
I even drove by your apartment, saw a 'For Sale' sign
You up and moved away
You could've at least called me
According to you, y'all was over
Now y'all are closer than y'all ever were
You swore to me I believed you when you said

Said you would love me for always
But always ended Saturday
How could you look me in my face?
Knowing you were with her in the first place
You took a piece of me
When you walked away last Saturday
I would've thought you'd be the one
That be good in my mind, come and aid the same
I didn't see a thing
That would even make me think
That you weren't really down for me
Boy, you ain't love me, you ain't love me
Said you would love me for always
But always ended Saturday
How could you look me in my face?
Knowing you were with her in the first place
Said you would love me for always

But always ended Saturday
How could you look me in my face?
Knowing you were with her in the first place
Oh, oh, baby, oh, oh
