Back Around

[Reckless Kelly](#)

Well I wish I was a vampire
So I could stay out all night long
I wish was Bob Dylan so I could write a bunch of hit songs
If I was a Rolling Stone I'd roll right out of town
But I wish I was a square so I'd stop coming back around
Now I don't know why I forget the things you do to me
I don't know why I don't have the guts to set you free
If I had one last wish I know what that would be
Well I'd wish I weren't your prisoner and that I could be released

If I had a fast car girl
I'd drive so far away
Far from you is far enough and that's just where I'd stay
If I was a searcher I'd find a proper day
I'd know your be alright cause you don't love me anyway
Now I don't know why I forget the things you do to me
I don't know why I don't have the guts to set you free
If I had one last wish I know what that would be
Well I'd wish I weren't your prisoner and that I could be released

Well I'd wish I weren't your prisoner and that I could be released
