

Great Divide

The Cardigans

There's a monster growing in our heads
Raised up on the wicked things we've said
A great divide between us now
Something we should know

There's something to remember
And something to forget
As long as we remember
There's something to regret

Something we should know
There's a mountain higher than we knew
It's high but such a bitter view
A great divide between us now

Something we should know
A great divide between us now
On different sides of a great divide
