

# Till I Found You

Josef Salvat

I've done things I'm not proud of  
Dark things just to fit into a crowd  
I though I belong to,  
just goes to show And a dark light like this  
you can't ever know  
If you're lamb or you're lion or both  
You are all ever gets you through I've spent my life wandering through a wilderness  
Play what ever role I had to play  
Crumbling under the weights of expectation  
Doomed to watch my youth slip on it's weight Till I found you  
Till I found you We live simply away from the world  
That was trying to pull us back in  
Into the hunt,  
Into the hunt They would always say  
You reap what you sow  
But in my case it just can't be true  
There's now a home with you I've spent my life wandering through a wilderness  
Play what ever role I had to play  
Crumbling under the weights of expectation  
Doomed to watch my youth slip on it's weight Till I found you  
Till I found you Till I found you  
Till I found you  
Till I found you... Till I found you (I've spent my life)  
Till I found you (crumbling under the weight)  
Till I found you (I've spent my life)  
Till I found you (crumbling under the weight) Till I found you  
Till I found you  
Till I found you...
