

# Do You

Kevin Gates

text you  
really didn't mean to upset you  
take a look at your thighs  
by the look in your eyes  
you really need somebody to ?  
undress you  
pull your hair  
and put dick on your spine  
get loud in public if i catch you with some other guy  
do you feel loved when ever were alone  
when ever were alone i can make you feel loved  
when i turn you around  
and i grip your waist  
and i hit you from behind  
and no you can't be mrs. gates  
i do this every time  
(i do this every time)  
hey how you doing?  
look my name kevin gates  
i know each and every way to make you feel good  
paints below my waist  
tear drops in my face  
im intelligent as hell and i'm real hood  
slang dick  
real gugg espically next to me  
she the type of woman that will kick it for a day  
but if she can't have her way  
get upset and leave  
again and again  
no oxygen but the wind  
call one of your friends
