

Heart Stops

Kenny Lattimore

I tried to fake it, at times I tend to lose trust in us
Sometimes I wanna slow down but I invested too much in us
Look how far we've came it's been hard times, trust I know
But still got time to grow so come on baby. I've never known this love to be easy
I'll never give upon us believe me
It's not that hard
All you got to do is let your heart come to me baby No care of how long we have let's make it clear
I'll love you 'till my heart stops
It's never enough, enough of you
I'll love you 'till my heart stops I might love and hate it
Cause I know what to do with you
For you I've waited
Cause I can see a better future
For better or worse
I'm gonna put up the fight
If it cost my life I'll be alright baby. I've never known this love to be easy
I'll never give up on us, believe me
It's not that hard
All you got to do is let your heart come to me No care of how long we have let's make it clear
I'll love you till my hearts stops
There's never enough, enough of you
I'll love you 'till my heart stops
I will love you baby until my heart stops We can let it all fade away or we can make it better today
Want you know that I'm all yours forever and a day yeah baby I've never known this love to be easy
I'll never give upon us believe me
It's not that hard,
All you got to do is let your heart come to me I don't care of how long we have, let's make it clear
I'll love you 'till my heart stops
There's never enough, enough of you
I'll love you 'till my heart stops
