Blue Blood

Biohazard

Advisory - the following lyrics contain explicit language:

Born at the bottom,
Struggle to find a way
You can feel the power,
It's growing every day
Fight for a change,
Can't wait until tomorrow
Make a difference on this day
and all the rest will follow
Blue Blood
Working class survives,
Don't forget your liberty
Blue Blood
Working class survived,
That's how we came to be
Blue Blood
Working class survives,
Don't forget your liberty
Chains must be broken if ever to be fine
Blue collar workers screaming "Liberty"
Respect, pride and honor
is what we want to see
Tall, proud, working class
frome sea to shining sea.
Seeds are sown, within own,
We shall not digress.
Crises of justice can't be suppressed.
Across the land the wheels
are now in motion.
Calloused hands create
a just commotion.
It shouldn't be
a working class suppressed.

We would rise above
with strength to contest.
Our homeland will shine,
To that I will attest
With blue collar pride
we'll show that America is best
Blue Blood
Working class survives,
Don't forget your liberty
Blue Blood
Working class survived,
That's how we came to be
Blue Blood
Working class survives,
Don't forget your liberty
The fathers of our country
Laid the foundation
Working man's sweat
is what built this nation.
Winds of change rearrange
when all is said and done.
We will forge ahead,
the battle will be won!
Working class will rise above,
standing tall and proud.
Working class above--Blue Blood.
Working class will rise above,
we will not forget.
Working class above--Blue Blood.
Working class will rise above,
standing tall and proud.
Working class above--Blue Blood.
