

Whatever Love Is

[Suzi Quatro](#)

She is as pretty as a picture
Cool as Jupiter
She fears God
And she reads scripture
But it's hard to see, when you look at her
She can do anything she wants
She can make anybody care
If you want true security
I'm in love with you tonight
Whatever love is
If you want me for all eternity
I'm in love with you right now
Whatever love is
She is a shining star
I see her in the sky at night
And she lost her innocence
Somewhere out there in the frozen lights
She is as pretty as a picture
Painted on a silver screen
She's part of the madness
Life has gifted me
She can do anything she wants
She can make anybody stop and stare
And care oh yeah
