Made Of Glass

Atb

A change is coming I can sense it now
The weight is lifting and I'm sinking down
Birds are flying in the trees below
The tears are coming, I just let it goIf I could, I'd hold this moment
If I could, I'd make it last
Sometimes life just seems to shatter
Like we're made of glassBreath on the water, dust in the sand
Make this moment last
Breath on the water, dust in the sand
We're all made of glassI feel the wonder in my flesh and bones
I feel the hunger, will you take me home
Birds are flying in the trees below
The tears are coming, I just let it goSometimes life just seems to shatter
Like we're made of glass
If I could, I'd hold this moment
If I could, I'd make it lastBreath on the water, dust in the sand
Make this moment last
Breath on the water, dust in the sand
We're all made of glassMade of glass
