

The Kind of Heart That Breaks (Album Version)

[Chris Cummings](#)

I've seen that look a million times before
It says she ain't no stranger to a closing door
And she can't hide what lies inside
She's got the kind of hear that breaks
Easy does it for goodness sake
One tear away from a big mistake
She's got the kind of heart that breaks my heart
One kiss, one night, it's gonna be too much
One time, no way, well, I'm finished if we touch
And I'm just a man, better go while I can
She's got the kind of hear that breaks
Easy does it for goodness sake
One tear away from a big mistake
She's got the kind of heart that breaks my heart
No, she can't hide what lies inside
She's got the kind of hear that
breaks
Easy does it for goodness sake
One tear away from a big mistake
She's got the kind of heart that breaks my heart
