

# My Funeral

## Heideroosjes

Now as I lay here in the dark  
And I think back to the start  
I know some things have to end  
For the next one to begin  
I walk alone, free at last  
I feel the pressure, letting go  
From the very bottom of my soul  
Flesh and bone for the past  
Light the ashes in the rain and fade away  
It's my funeral, welcome you all  
This is the end of the line  
So thank you for coming along  
My time has come, I don't wanna leave you behind  
But this one I'll do on my own  
Now as we stand two worlds apart  
The times hardened up my heart  
From a world of no regrets  
That I hope won't soon forget  
I walk the line, on broken glass  
I let the passion take control  
Of the very bottom of my soul  
Cross the line, fade to black  
Hold the candle to the flame and light the way  
To my funeral, welcome you all  
This is the end of the line  
So thank you for coming along  
My time has come, I don't wanna leave you behind  
But this one I'll do on my own  
It's my funeral, welcome you all  
This is the end of the line  
So thank you for coming along  
My time has come, I don't wanna leave you behind  
But this one I'll do on my own  
This is the end of the line  
So thank you for coming along  
My time has come, I don't wanna leave you behind  
But this is the end of the line  
It's my funeral  
It's my funeral
