

# Hard Road

Gurf Morlix

There's a fire on the mountain  
There's a fire in my soul  
There's a sign on the highway  
It's a hard road  
There's a break in a heart  
There's a break in a bone  
There's a ghost in the dark  
It's a hard road  
There's blood in the kitchen  
In the shape of a sin  
There's a ship in the water  
But it ain't coming in  
There's a fall of an angel  
At the end of the show  
But who's gonna save my soul  
It's a hard road  
There's a heavy jacket  
There's a heavy load  
There's a weight on my shoulders

It's a hard road  
There's a howl at the backdoor  
There's a howl in the cold  
There's a broken bottle  
It's a hard road  
There's blood in the kitchen  
In the shape of a sin  
There's a ship in the water  
But it ain't coming in  
There's a fall of an angel  
At the end of the show  
But who's gonna save my soul  
It's a hard road  
There's a strange feeling coming over me  
Hollow eyes misery  
There's someone at the backdoor  
There's someone in the cold  
God save my soul  
It's a hard road
