## The Giant

## **Monster Truck**

I'll never change, I stay the same It's not so bad, I'm Dr. Strange My broken heart, I have to face My broken heart, Hell's on its way My time to start, procrastinate I feel alive, I fucking hate There's nothing left, there's nothing right If there's no point, why do we fight? Welcome to my vicious circle Trying to escape, break out Playing with my knife until it cuts me Giant walking, no more talking In my way and one way out Fighting me forever, I'll break the giant down Caught between the lines of right and wrong, yeah Caught between the things that I don't know Up and down the mountain climbing, climbing Drowning in a ocean to find my soul I have to win, I never lose I'll have my way, you have to choose War all the time, I'm fucking fierce War all the time, what do I fear? The giant walks, the giant eats Out of control, the giant beats And breaks you down, with all your might With nothing left and still I fight

Welcome to my vicious circle
Trying to escape, break out
Playing with my knife until it cuts me
Giant walking, no more talking
In my way and one way out
Fighting me forever, I'll break the giant down
Caught between the lines of right and wrong, yeah
Caught between the things that I don't know
Up and down the mountain climbing, climbing
Drowning in a ocean to find my soul
Caught between the lines of right and wrong, yeah
Caught between the lines of right and wrong, yeah
Caught between the things that I don't know

Up and down the mountain climbing, climbing
Drowning in a ocean to find my soul
Caught between the lines of right and wrong, yeah
Caught between the things that I don't know
Up and down the mountain climbing, climbing
Drowning in a ocean to find my soul
Caught between the lines of right and wrong, yeah
Caught between the things that I don't know
Up and down the mountain climbing, climbing
Drowning in a ocean to find my soul
Caught between the lines of right and wrong, yeah
Caught between the things that I don't know
Up and down the mountain climbing, climbing
Drowning in a ocean to find my soul
