Put That Record On

Hinder

By the time that the songs came on
We were stoned, out of our minds
I know it's only rock and roll
But it's the soundtrack of our lives
And no matter how crazy life gets
I can feel right at home, sweet home
Everytime I put that record on
The first time I got a whole lotta love
I wanted a whole lot more
In the back seat baby made me feel
Like maybe we were knocking on heaven's door
Walked this way still to this day
Makes me wanna drink all night long
Everytime I put that record on, come on, come on
Turn, turn, turn it up loud
Light you one up and pass it around
The song remains the same
As life goes on and on and on, yeah
Turn, turn, turn the page
We're back to that first time and place
When you felt like you were living in that song
Put that record on, oh
Life's been a crazy train
Barely kept it on the tracks
If you think it's the same
That I act this way blame it on back in black
Thought I did everything I did
And I forget what I've done wrong
Everytime I put that record on, come on, yeah
Turn, turn, turn it up loud
Light you one up and pass it around
The song remains the same
As life goes on and on and on, yeah
Turn, turn, turn the page
We're back to that first time and place
When you felt like you were living in that song
Put that record on
Let it play, take me back to yesterday
Come on, baby, sing it now

Turn, turn, turn it up loud
Light you one up and pass it around
The song remains the same
As life goes on and on and on, yeah
Turn, turn, turn the page
We're back to that first time and place
When you felt like you were living in that song
Put that record on, put that record on, put that record on
On and on
