

# December

Norah Jones

December, come to me  
I hope I can see  
You're not just in dreams  
I will let you be  
Why can't you believe  
How much you really mean?  
December, won't you come  
Back with snow, even sun?

Don't say that it's done  
I will carry you home  
Take you from the loneliest place  
You have known  
I will carry you home  
Take me from the loneliest place  
I have known
