Glamorous Glue

Morrissey

First day with the jar, you find everyone lies
First day with the jar, you find everyone lies
Nobody minds, everyone lies
Where is the man you respect ?
And where is the woman you love ?
Where's the woman you love ?
Third week with the jar, you find everything dies
We won't vote conservative because we never have
Everyone lies, everyone lies
Where is the man you respect ?
And where is the woman you love ?
Where's the woman you love ?
Everything of worth on earth
Is there to share
I used to dream and I used to vow
I wouldn't dream of it now
We look to Los Angeles for the language we use
London is dead, London is dead, London is dead
London is dead, London is dead, London is dead
Now I'm too much in love, I'm too much in love
I know, I'll go empty hand
From the land
