

# Away

## Meat Puppets

[Chorus]

Away[Verse 1]

Been on the road a dozen times now

Within the leeway, behind the sand house

The fascinatin' book of strings

Picks the leaves that drift down in between[Bridge]

Suns to lift up in between

They told some stories like you've never seen

They just let everything drift down in between

Suns to lift up in between[Chorus][Verse 2]

Mine to lift up and to follow

In the steps of fluids hollow

Without time we pick up all the streams

To find the leaves that drift down in between[Bridge][Chorus]
