

# Whiskey Kisses

MiC LOWRY

Your whiskey kisses all on my lips  
I keep coming right back I didn't come here to party  
In one touch, you got me  
You was treating my head cocky  
Everything that you said got me  
I'm not that into drinking  
But with you, I'm sinking  
You was treating my head faded  
Every sip that I get  
Came for a fight, I let you in  
Under my skin  
You changed my mind and I give in  
And it's always the same You make me call your name  
Now I gotta have one more taste  
One shot of your whiskey kisses all on my lips  
I keep coming right back  
You make me call your name  
Now I gotta have one more taste  
One shot of your whiskey kisses all on my lips  
I keep coming right back  
Your whiskey kisses all on my lips  
I keep coming right back  
Your whiskey kisses all on my lips  
I keep coming right back  
Like I'm up hills and oceans  
You took the moment  
But that doesn't know you want it  
Right inside of my head, you stole it  
Riding on automatic  
And I get so distracted  
All I hear is your body talking  
Every sip that I take Came for a fight, I let you in  
Under my skin  
You changed my mind and I give in  
And it's always the same You make me call your name  
Now I gotta have one more taste  
One shot of your whiskey kisses all on my lips  
I keep coming right back  
You make me call your name

Now I gotta have one more taste  
One shot of your whiskey kisses all on my lips  
I keep coming right back  
Your whiskey kisses all on my lips  
I keep coming right back  
Your whiskey kisses all on my lips  
I keep coming right back  
Make you my focus  
No interruptions  
Run out of options  
I just gotta make you mine  
I just gotta make you  
Gotta keep you coming right back  
You make me call your name  
Now I gotta have one more taste  
One shot of your whiskey kisses all on my lips  
I keep coming right back  
You make me call your name  
Now I gotta have one more taste  
One shot of your whiskey kisses all on my lips  
I keep coming right back  
Your whiskey kisses all on my lips  
I keep coming right back  
Your whiskey kisses all on my lips  
I keep coming right back
