Sweetness

Fischerspooner

Violence paints the sky
Was a fearsome joy of shooting blazing bursting
Now Im pouring sweetness that I served inside
Was this profusion and it fills me up
Was this profusion and it fills me upAnd I going and Im coming in now
And I feel it cannot be nowhere now
And I go here I am, where I go I cannot say
You are me and you are where I amYou smashed your hornets nest they swarm around inside
They hope to seek revenge slowly suffocate
In a bliss fragrance my core atomizes
Deep in me gardenias bloom for youSplendid confusion hornets swarm inside
Pounds against refusion splendid confusion
