I'll Give You Everything

Immature

I makes all the money, uh
I makes all the money, uh
I makes all the money, uh
I makes all the moneyRome got all the mommies, check it
Spending 30 G's on clothes, not sweatin' it
Yo wait! You see the SL 500
Tripp, I gotta answer my flipLet's see, what my next move will be
I gotta grip, for all the honies
For all the honies, for all the honies
Ha ha ha haThe summer breeze
You're holding my hand
Girl you don't understand
Exactly what you're doing to meMemories
Reminding me of you
And all the things you do
Has got me hooked on lovin' youYou and I
(You and I)
We were meant to be
(We were meant to be)
I'll give you everything you need
(Everything you need)You and I
(You and I)
Our love remains
(Our love remains)
As long as we don't play no games
(Play no games)I'll give you all of me
Can't you see?
No matter what they say
I'll give you everything that you needYou got a hold on me
Can't you see
I'll never change my ways
I'll give you everything that you needReminisce all night
Just kickin' it
Even when you're miles away
My heart belongs to you on-layTry to try
In love one one time
I won't let you down
Just believe in meYou and I
(You and I)

We were meant to be
(We were meant to be)
I'll give you everything you need
(Everything you need)You and I
(You and I)
Our love remains
(Our love remains)
As long as we don't play no games
(Play no games)I'll give you all of me
Can't you see?
No matter what they say
I'll give you everything that you needYou got a hold on me
Can't you see
I'll never change my ways
I'll give you everything that you needRome, makes all the money
Check it, 24K Rolex reck it
Money-makin' rebel, laced
Put all the cash in the suitcase, mmmRespect the way I freak the track
The way I freak the track, the way I freak the track
Don't hit the 'pause'
Got yo head swingin' back, ha ha ha haI'll give you all of me
Can't you see?
No matter what they say
I'll give you everything that you needYou got a hold on me
Can't you see
I'll never change my ways
I'll give you everything that you need
