Stormy Weather

Little Dragon

Imagining all the drama like a film
It runs in my mind, all the hard times how it turns
Imagining you there thinking of your future
And of your past and your new walls painted
Your eyes look low
And the ticking of the clock's too slowSeasons, stormy weather
When it ends, we'll stay warm together
Seasons, stormy weather
When it ends, we'll stay warm togetherNo distance can separate
Imagine us combined, light up the room, electrify
Our love could be so divine
Well make rainbows at night
When its dark, well be light, well be lightStormy weather
When it ends, we'll stay warm together
Seasons, stormy weather
When it ends, we'll stay warm together
We will stay warm together
We will stay warm together
