

# Devotion (feat. Kylie Minogue)

## Hurts

Inside the heart of every man  
There is a lust you understand  
And I'm just the same When all the love has gone away  
And passion stares me in the face  
Could I walk away Here's hopin'  
You'll help me to be brave Devotion save me now  
I don't wanna stray from the hallow ground  
I'll turn temptation down  
I'm asking you to take me to safety this time Forgive my thoughts when I'm asleep  
Forgive these words I'm yet to speak  
I feel so ashamed Right now you seem so far away  
So much confusion clouds my mind  
And I don't know which path to take Here's hopin'  
You'll help me to resist Devotion save me now  
I don't wanna stray from the hallow ground  
I'll turn temptation down  
I'm asking you to take me to safety this time Devotion, devotion  
I'm a slave onto the mercy of your love  
For so long I've been so wrong  
I could never live without you Devotion, devotion  
Take me to safety
