Lately

Samantha Mumba

Lately
Been thinking about you baby
Just sittin' away watching the days go by
Lately
Been thinking about you baby
Just sittin' away watching the days go byHave you ever felt a breeze hit your heart
Like the wind was blowing it apart
Had you spinning like a merry-go-round
Indications of a storm touching downI wish that I could weather any storm
But I guess it was heartbreak from the norm
Was it a day I will always remember
The saddest day in sweet NovemberLately
(I've been watching you)
Been thinking about you baby
(And everything you do)
Just sittin' away watching the days go by
(Watching the days go by)
Lately
(I've been watching you)
Been thinking about you baby
(And everything you do)
Just sittin' away watching the days go byBaby, I'm on my knees
Praying god help me please
Bring my baby back
Right back to meIf loving you is right
Then I don't want to go wrong
So I drown myself with tears
Sittin' here singing another sad love songLately
(I've been watching you)
Been thinking about you baby
(And everything you do)
Just sittin' away watching the days go by
(Watching the days go by)
Lately
(I've been watching you)
Been thinking about you baby
(And everything you do)
Just sittin' away watching the days go byBaby I've been torn apart
I wish you hadn't broke my heart

I'm missing you babe, missing you everyday
Lately I've been torn apart
Wishing you hadn't broke my heart
I'm missing you babe, missing you everydayLately
(I've been watching you)
Been thinking about you baby
(And everything you do)
Just sittin' away watching the days go by
Lately
(I've been watching you)
Been thinking about you baby
(And everything you do)
Just sittin' away watching the days go byLately
(I've been watching you)
Been thinking about you baby
(And everything you do)
Just sittin' away watching the days go by
(Watching the days go by)
Lately
(I've been watching you)
Been thinking about you baby
(And everything you do)
Just sittin' away watching the days go byLately
(I've been watching you)
Been thinking about you baby
(And everything you do)
Just sittin' away watching the days go by
(Just sittin' away watching the days go by)
Lately
(I've been watching you)
Been thinking about you baby
(And everything you do)
Just sittin' away watching the days go byLately
(I've been watching you)
Been thinking about you baby
(And everything you do)
Just sittin' away watching the days go by
Lately
(I've been watching you)
Been thinking about you baby
(And everything you do)
Just sittin' away watching the days go byLately
