

Girl Like You

High Tiny Hairs

I've been waiting for a girl
Waiting for a girl
Waiting for a girl like you
I'm just standing 'round
Waiting for a girl
Hanging 'round for a girl like you
You standing in a queue
Walking through the Louvre
With your mother
Hi, took me by the eye
You caught me in the hang
Undercover
I've been waiting for a girl
Waiting for a girl
Waiting for a girl like you
I'm just standing 'round
Waiting for a girl
Hanging 'round for a girl like you
Show someone how to grow
Make a garden be out of nothing
You beating at the moon
Barking up a tree, stark running
I've been waiting for a girl
Waiting for a girl
Waiting for a girl like you
I'm just standing 'round
Waiting for a girl
Hanging 'round for a girl like you
Living in a rocky world
Listen to the mockingbird
Listen when your mama says
"Baby come home, real home"
I've been waiting for a girl
Waiting for a girl
Waiting for a girl like you
I'm just standing 'round
Waiting for a girl
Hanging 'round for a girl like you
I've been waiting for a girl

Waiting for a girl
Waiting for a girl like you
I'm just standing 'round
Waiting for a girl
Hanging 'round for a girl like you
