

Trees (feat. Ellis Johanson)

Chase Johanson

Scratch the looks you give to the unloved
Try and find a smile
Fight the want to do it all wrong
Make it worth your while Bite the tongue that got you thru the day
And don't say a word
You'll never see expression on their face
Just know that they heard You don't see the wonderful things we see
We climb and see the world from up a tree
Looking down is different
You see the lack of discipline
Feeling high is where I wanna be Life is so much different when your small
But all part of a plan
You learn to see the things you couldn't know
A boy becomes a man Don't let darkness blind you from the light
Follow on the path
Everyone gets covered up by clouds
You can't prevent that You don't see the wonderful things we see
We climb and see the world from up a tree
Looking down is different
You see the lack of discipline
Feeling high is where I wanna be Oh where I wanna be
Breathin in the air
Oh where I wanna be
That you can't get down there
Oh where I wanna be
Above the smoke and fire
Oh where I wanna be
The sky's what I desire You don't see the wonderful things we see
We climb and see the world from up a tree
See Looking down is different
You see the lack of discipline
Feeling high is where we wanna be Ohs
