

# Doe Or Die

AZ

Yeah, New York undercover baby  
Whole lot of things done changed  
Yeah, it's a lot of people puttin' black eyes in the game  
You know what I mean? Alright, let's do this  
Check it  
I had a block locked but took a fall now I'm off my feet  
I gotta eat, so it's back to these fuckin' streets  
And I will grow 'cause I'm an old timer  
I bring the drama to any nigga, his babies or his fuckin' mama  
I gotta look like Tevin Campbell, but still I gamble  
Hustle and scramble 'cause money is muscles in this damn zoo  
And in order to make it, you gotta take it  
Be the boom blast boom spin, break but don't fake it  
That's why there's no guilt for these trife niggas bloods I  
spill  
Took what they built, flippin' their drug game on tilt  
'Cause in New York, dealin' drugs is a sport  
You either sell it, smoke it shoot up or snort, either way you're caught  
And since I'm in it, now I'm in it to win  
it, skies is the limit  
So no mo' bein' some motherfucker's lieutenant  
Shit, from this point that's how I feel, I wanna fly  
Yeah, it's either doe or die  
It's like a jungle sometimes  
It's like a jungle sometimes  
It's like a jungle sometimes  
The weed smoke makes me wonder  
How I keep from goin' under  
It's like a jungle sometimes  
It's like a jungle sometimes  
It's like a jungle sometimes  
The weed smoke makes me wonder  
How I keep from goin' under  
And other hoods I hang with, mix slang in they language  
Love, kickin' that gang shit, sellin' on the same strip  
Hustlin' hard, no matter how much we hated  
So dedicated, even our dreams are drug related  
Shit, puff bananas, not even the cops can stand us  
'Cause of the way we vanish, every time they come to can us  
25 we get the money live, fuck all that funny jive  
The streets is our only source to survive  
And before any teeny boppers think about tryin' to stop us  
I rather put your head, through the propellers of a helicopter  
'Cause all my peeps be playin' for keeps  
Straight out the litter, so bitter, these bandits don't even need sweets  
Bringin' the ruckus, like some mad  
motherfuckers  
Move at night like truckers when suckers see us, they duck us  
Shit, only the real can relate to the things a hungry man'll try

It's either doe or die It's like a jungle sometimes  
 It's like a jungle sometimes  
 It's like a jungle sometimes  
 The weed smoke makes me wonder  
 How I keep from goin' under It's like a jungle sometimes  
 It's like a jungle sometimes  
 It's like a jungle sometimes  
 The weed smoke makes me wonder  
 How I keep from goin' under And ever since I was a tar face baby watchin' Scarface  
 I dreamed of guns and tons of coke on a car chase  
 A fat connect with a kingpin Colombian  
 Plus props for crooked cops, payin' him tops not to run me in Keepin' my toaster in a shoulder holster  
 Havin' hoes playin' me closer, sexin' on a silk sofa  
 Livin' the life of the rich and trife  
 Rugged but sharp like a kitchen knife  
 Without stress from some bitchin' wife What a life, that's why I be on what I be on  
 Always ready a war for, score a shoulder put me on  
 And until then, I won't sealin' what I'm feelin'  
 It was inside that I cried, but now it's spillin' I'm goin' all out until I fallout  
 So much of a menace, when I finish  
 Milkin' New York, I'll have to call out  
 On the run, 'cause I know feds will try and knock me  
 And railroad my soul to a hell hole if they got me But not me, I'm goin' out fightin' until I fry  
 From hot lead no lie  
 Like I said, "It's either doe or die"  
 Doe or die, doe or die, doe or die  
 It's either doe or die It's like a jungle sometimes  
 It's like a jungle sometimes  
 It's like a jungle sometimes  
 The weed smoke makes me wonder  
 How I keep from goin' under Visualizin' the realism of life and actuality  
 Fuck who's the baddest  
 The personal status, the pimps or salary  
 It's like a jungle sometimes  
 The weed smoke makes me wonder  
 How I keep from goin' under If not why not  
 Either you're in it, or you're in the way baby pa  
 New yields, no quills  
 I want it all It's like a jungle sometimes  
 It's like a jungle sometimes  
 It's like a jungle sometimes  
 The weed smoke makes me wonder  
 How I keep from goin' under It's like a jungle sometimes  
 It's like a jungle sometimes  
 It's like a jungle sometimes

The weed smoke makes me wonder
