Electric High

Elliot Minor

I've painted all this over, been working overtime.
I'm a little far from heaven but I survived.Now you're coming over with the haze and the lie
And I'm stood here watching, watching on 'causeI'm close to surrender
To the point I forgive her.Take me higher take me high,
I wanna feel your essence come to life.
Electric High, Electric High,
I just wanna feel, I just wanna feel it come to life.Climbing into spaces
As faces crystallize
I swear I will deliver
To places we feel right
Chasing all your diamonds
A thousand painted eyes
Running from the outside,
God if I could flySmoke hits the skyline
Setting a silver high
Diffuse and surrender
To the point I forgive her.Take me higher, take me high,
I wanna feel your essence come to life.
Electric High, Electric High
I just wanna feel, I just wanna feel it come to life.Smoke hits the highlight
Setting a silver high
Diffuse and surrender
To the point I forgive her.Take me higher, take me high,
I wanna feel your essence come to life.
Electric High, Electric High
I just wanna feel, I just wanna feel it come to life.Electric High, I wanna feel your essence come to life.Electric High, Electric High
I just wanna feel, I just wanna feel,
I just wanna feel, I just wanna feel it come to life.
