

# Livin' Easy

Cody Simpson

I'm usually a yes man, I always say yes man  
Walking through the streets, through the trees, in a big black winter coat, woah  
You'll find me at the bus stop or sitting at the coffee shop  
Sipping on a café au lait, or something that I can't pronounce, yeah

Cause you know I'm never in a rush  
What I got is more than enough, oh

I like my living easy, I don't need much of anything  
That real good feeling, the kind that makes you wanna sing  
I don't mind being on my own, but I would love it if you came along  
So we can live it easy, living easy, that real good feeling, living easy

I never say no man, I'm just another no man  
Walking through the desert just for pleasure, never looking for a treasure chest  
Where we gonna go man? I tell you I don't know man  
But if you're looking for adventure, you can join me on my endless quest

Cause you know I'm never in a rush

I like my living easy, I don't need much of anything  
That real good feeling, the kind that makes you wanna sing  
I don't mind being on my own, but I would love it if you came along  
So we can live it easy, living easy, that real good feeling, living easy

(Get down c'mon)

I like a little mahi-mahi on my taco on the weekend  
I can hear them birds singing, I've been sleeping on the speakers  
When I'm walking down the street in barefeet and concrete  
Never thinking, just leaning on the truth behind a meaning

So easy, I don't need much of anything  
That real good feeling, the kind that makes you wanna sing  
I don't mind being on my own, but I would love it if you came along  
So we can live it easy, living easy, that real good feeling, living easy
