

# Who Are You?

## Union 13

Who the fuck are you to place judgment over me?  
Just because I didn't give into your needs  
Take control, get a hold of your life  
Learn to read between the fucking lines  
Learn to read between the fucking lines  
Learn to read between the fucking lines They call me a screw up, a reject of society  
Little did they know that I had my own army  
It's better to struggle than to take the easy way out  
The only way to get somewhere is to fucking speak out  
The only way to get somewhere is to fucking speak out So who the fuck are you?  
Take control get a hold of your life  
Learn to read between the fucking lines
