## Get to You

## **The Byrds**

Standing in the airport I am waiting for a plane
Goin east to London, want to be back there again
Its the right time of year, all the trees are autumn brown
but I really only want to Get To YouSitting by the window, watching ocean going by
Seems I should be with you but how fast can this thing fly
Hey how it seems like an eternity
All the time it took me trying to Get To YouAh, thats a little better, Ah, thats a little better
Ah, thats a little better, Ah, thats a little betterStanding in the airport I am getting off the plane
Glad to be in London even though its pouring rain
Its a bright sunny day when I see you run my way
but it took me twenty years to Get To You
Its a bright sunny day when I see you run my way
but it took me twenty years to Get To You
