

# Handle Your Business

## Down South Hustlers

I really enjoy ya  
Just hangin' out doing things  
I got a lot of love for ya  
No games ain't nothing changed  
Now why ya wanna call my cell  
Talkin' 'bout love me or leave me alone  
Girl, you knew from the gheco  
So whatcha leave this message for  
It's been a while and this ain't my style  
If it's gonna be, then let me know  
If not then, let me go right now  
If you want my love, baby, handle your business  
If it's not about us, there's no sense in chillin', chillin'  
If I'm what you want  
Let's start billin'  
'Cuz whenever your around, I get this feeling, feeling  
Baby, you must not know what love means  
'Cuz if you did, you wouldn't do these things  
Love ain't always getting in my jeans  
But that's all you wanna do, it seems  
What about deep conversation?  
Sharing secrets, being there for one another  
When the other needs it, you say you love me and I don't believe it  
That's why I have to call and say  
It's been a while and this ain't my style  
If it's gonna be, then let me know  
If not then, let me go right now  
If you want my love, baby, handle your business  
If it's not about us, there's no sense in chillin', chillin'  
If I'm what you want  
Let's start billin'  
'Cuz whenever your around, I get this feeling, feeling  
Ronald, make up your mind  
Oh Candy, say can I take my time, baby  
C'mon boy you're wasting time  
Girl, I want you in my life, baby  
Right now boy you gotta choose  
Ooh you got me so confused  
I love you

I love you too, girl  
If that's true, you know what you gonna do  
If you want my love, baby, handle your business  
If it's not about us, there's no sense in chillin', chillin'  
If I'm what you want  
Let's start billin'  
'Cuz whenever your around, I get this feeling, feeling  
If you want my love, baby, handle your business  
If it's not about us, there's no sense in chillin', chillin'  
If I'm what you want  
Let's start billin'  
'Cuz whenever your around, I get this feeling, feeling  
Love you, baby, you know I love you, baby  
And you know I love you  
You drive me crazy  
You drive me crazy
