

# Smoke Filled Room (Luca Schreiner Remix)

## Mako

Isn't it a little late  
Shouldn't you fly away?  
Little dove with cigarettes  
Show 'em that you can hold your breath I heard about a girl  
Buried her dolls and lost her curls  
Painted on lipstick red  
Grew herself up and then she'd walk into a smoke-filled room  
Oh, no one could keep their eyes off you  
Have a little drink or two  
Oh, how could you be that girl I knew? Walk into a smoke-filled room  
Little black dress and mama's shoes  
Isn't it a bit too soon  
Oh, how could you be that girl I knew? How could you be that girl I knew? Walk into a smoke filled room  
Oh, I believe love will follow you  
Isn't it a bit too soon  
Oh, how could you be that girl I knew? Take a step around the room  
And every head keeps turning too  
Little dove, you fight 'em back  
Show 'em you're so much more than that I heard about a girl  
Buried her dolls and lost her curls  
Painted on lipstick red  
Grew herself up and then she'd walk into a smoke-filled room  
Oh, no one could keep their eyes off you  
Have a little drink or two  
Oh, how could you be that girl I knew? Walk into a smoke-filled room  
Little black dress and mama's shoes  
Isn't it a bit too soon  
Oh, how could you be that girl I knew?
