Sleep in the Park

Solange

Stand in the dark
A little while longer
That way they'll never figure us out
Induce in the morningSleep in the park
And eat on the corner
'Cause there we gonna spend it for life
Ah, ahNo, we got a long way
No, we got a long, long way to go
No, we got a long way
Yeah, we got a long, long way to goWe can't survive on love baby (baby)
No, no, ah
We can't survive on love baby
We can't survive on just the, just the love baby (baby)
We can't go alone, oh love
If we do, then we dieTake out the trash
And throw out your wallet
Been living in the shack in your heart
And waste out my collegeDress me in rags
Just make sure my shoes fit
To walk around this life like I haveNo, we got a long way
No, we got a long, long way to go
No, we got a long way
Yeah, we got a long, long way to goWe can't survive on love baby (baby)
No, no, ah
We can't survive on love baby
We can't survive on just the, just the love baby (baby)
We can't go alone, oh love
If we do, then we dieYeah, we got a long, long way to go
We can't survive on love baby
We can't survive on love baby (baby)
No, no, ah
We can't survive on the love
We can't survive on just the, just the love baby (baby)
We can't go alone, oh love
If we do, then we die
