

I Love How I Feel

Ellie Campbell

You've got to understand, it took a special man
To reach inside of me
Was easy letting go, cause you were there to hold
All I can do is believe
Cause you touch me like no other (no other)
Baby can't you see That I love how I feel
Yeah I love how I feel when I'm lovin' you (ohh..)
And I love how I feel
Yeah I love how I feel when we love (when we love, we love) Caught in the afterglow, just wanna let you know
Changes you made in me
Your love lifted me up, shined like a rising sun
And now you're all that I need
Cause you touch me like no other (no other)
Baby can't you see That I love how I feel
Yeah I love how I feel when I'm lovin' you (ohh..)
And I love how I feel
Yeah I love how I feel when we love (ohh.., when I love) And now I understand, love is the masterplan
For each and everyone, and now our time has come
Until the sun don't shine, I promise all that's mine
I'm gonna be your light
Baby it's alright Love is the moment I met your eyes
Love is a feeling that can't be denied
Love is knowing you're never alone
Love is the reason for making it home
Love is a temple where lovers run
Love is the moment when we are one
Love is the truth and love is the light
Love has no end, love is life
Love is a language, love is a word
Love is confusion, love is absurd
Love makes us laugh, and love makes us cry
We can't understand love, why do we try
Love is a teacher love is a fool
Love is the gift I give to you
Love is the kiss on your lips as you sleep
Love is our strength and love makes us weak
Love is the wind that fills up the soil
Love is love and love will not fail That I love how I feel
Yeah I love how I feel when I'm lovin' you (ohh..)

And I love how I feel
Yeah I love how I feel when we love (when we love) That I love how I feel
Yeah I love how I feel when I'm lovin' you (ohh..)
And I love how I feel
Yeah I love how I feel when we love (when we love, we love)
