

True Emotion

Alias

No one's here to change your mind
She's a thousand miles away
Just relax, it's waitin' there
All around me 40 million questions Here today and gone tomorrow, I know
It's heaven or just a rainy day All I want, all I need
(All I need)
All I have is true emotion
All I want, all I need
(All I need)
All I have is true emotion It's alright, you've got the time
She can play by all your rules
Critical, what you decide
Can't complain at least I'm out of danger Here today and gone tomorrow, I know
It's heaven or just a rainy day All I want, all I need
(All I need)
All I have is true emotion
All I want, all I need
(All I need)
All I have is true emotion Ohh, ohh, ohh All I want, all I need
(All I need)
All I have is true emotion
All I want, all I need
(All I need)
All I have is true emotion
(All I need)
