

# Turn My Grave

## I Was Totally Destroying It

Now I don't mind if they carry me away  
For turning my back on things they can't explain  
I don't mind if you see no good in me  
So hold my breath under water I guess  
Then wait to see what face the water reflects  
Until then I'll just wait for what comes next

And if you fall right down  
You fall right down on me  
And if you fall right down  
You fall onto your knees  
I believe that what you do will be  
The light that sets you free  
Not what you believe

Now I don't mean to get carried away  
But I've seen things I won't say  
They turn my grave  
So hold your ground so your flags can wave  
In the face of clemency  
That's on my team!

And if you fall right down  
You fall right down on me  
And if you fall right down  
You fall onto your knees  
I believe that what you do will be  
The light that sets you free  
I believe
