

# Robota

## Sparzanza

Walk with me  
Straight lines on a killing spree  
You will see  
Twisted faces, black debreeHail! hail!  
RobotaHave no fear  
If you're afraid then you're too weak  
All is clear  
Let the hate and armour speakHail, hail!  
RobotaComing around  
We're coming around so face the ground  
Hear the sound  
Of marching footsteps in straight lines
